Introduction to the Natural Gas Industry

Qualified Operator Series
Overview of the Natural Gas Industry

Lesson 1 – A Natural Gas Industry Overview and History.....	15
Objectives	16
Introduction	16
First Gas Works in the United States	17
Large Diameter Pipeline – Beginning of an Era	19
Industry Segments	23
Natural Gas Characteristics and Properties.....	24
Natural Gas - Properties and Limits of Flammability.....	24
Flammable Range - LEL	24
Components of Natural Gas	25
Specific Gravity	26
Natural Gas Volume, Heating Value, and Pressure.....	27
Standard Cubic Foot of Natural Gas	27
Gas Analysis-Heating Values	28
British thermal unit (BTU).....	29
Dekatherm (Dth) and Therms	29
Calculating MMBTU's	30
What is Pressure.....	31
Differential Pressure	31
Static Pressure.....	32
Temperature	32
Gravity.....	32
Measuring Pressure: PSIG Versus PSIA.....	33
Pounds Per Square Inch - Gauge (PSIG) and Absolute (PSIA)	33
Convert PSIG to PSIA.....	34
Bar	35
Pressure Measurement using a Water Column Manometer.....	36
Indicating Fluids	36
How a Manometer Works	36
Digital Manometers	38
Gas Laws: Pressure, Volume, and Temperature.....	39
Gas Laws	39
Absolute Units	40
Boyles Law.....	40

Charles Law	42
Charles Law Problem.....	44
Charles Law Solution	45
Ideal Gas Laws - Combination of Pressure & Temperature	46
Example of Ideal Gas Laws	47
Solution to Ideal Gas Law Example	47
Lesson 2 – Regulatory Bodies and Trade Associations	50
Objectives	50
Introduction - Regulatory Agencies.....	50
Department of Transportation – Pipeline & Hazardous Materials Administration.....	51
Department of Transportation – Regulatory Structure	51
Department of Transportation – 29 Code of Federal Regulation	52
49 CFR Parts for Pipelines	52
Regulatory Oversight - CFR 49 Part 192.....	52
Birth of Federal Pipeline Safety Regulations	53
New London, Texas – March 18, 1939.....	53
Operator Qualification – Olympic Pipeline: Bellingham, Washington	55
Map of Area where Incidents Occurred	55
Prescriptive vs. Performance Based Regulations – Prescriptive	56
Prescriptive vs. Performance Based Regulations – Performance	56
Oversight to DOT – National Transportation Safety Board (NTSB).....	57
Major Regulatory Bodies & Trade Associations.....	59
Laws and Agencies.....	59
Town Hall Meetings – Input from the Public	60
Lesson 3 – Industry Segment: Exploration & Production	62
Objectives	62
Industry Segments.....	62
Upstream	63
Midstream	63
Downstream.....	63
United States Oil Production.....	66
Upstream: Oil and Gas Production Zones	66
Upstream: Shale Gas and Shale Plays.....	67
Upstream: Horizontal Drilling and Hydraulic Fracturing	67

Upstream: Drilling Strategy	68
Midstream Gathering Pipelines and Processing Operations	71
Midstream: Gathering and Processing Operations	71
Midstream: Natural Gas Processing	75
Offshore Production	76
Lesson 4 – Midstream: The Pipeline (Transmission) System	80
Objectives	80
Transmission Pipelines - Midstream	80
Midstream: Gas Transmission Operations	81
PHMSA 192.3 Definition: Transmission, Gathering, and Distribution	82
Natural Gas Industry Timeline	83
Major Components of a Gas Transmission System	85
How to Build a Pipeline	87
FERC Order 636 – Open Access	88
Lesson 5 – Midstream: Transportation of Natural Gas	93
Transportation Contracts	94
Lesson 6 – Downstream: LDC Operations, Service & Support	98
Objectives	98
Downstream - Development and Growth of an Industry	98
Gas Distribution – Polyethylene (PE) Pipeline	99
Early beginnings of the Natural Gas Industry	100
Average Cost of Natural Gas Utility Service	101
The Grid: Natural Gas Distribution System	101
Downstream: Distribution System Components	102
City Gate Station	102
Downstream – Residential System: Rural Regulator Stations & Farm Taps	113
Natural Gas Distribution System: Cost to Operate	122
Pipeline Safety: Regulatory & Operating Procedure	122
DOT 49 CFR Part 191 – Transportation of Natural Gas by Pipeline	123
Definitions (DOT CFR Part 191.3)	123
Incident Reports (DOT CFR Part 191.5,7, and 9)	124
Incident Reporting Requirements	124
Company Reporting Requirements 192.605	125
Example of a Company Reporting Procedure	125

State Reporting Requirements.....	126
Annual Reports (DOT CFR Part 191.11 and 15).....	126
Safety-Related Condition Reports (DOT CFR Part 191.23 and 25).....	126
Safety-Related Condition Reporting Requirements.....	126
Regulatory Oversight - CFR 49 Part 192.....	128
General Guidelines (49 CFR Part 192) Subpart A.....	128
192.351 Scope (Subpart H).....	129
192.353 Customer meters and regulators: Location (Subpart H).....	129
192.355 Customer meters and regulators: Protection from damage (Subpart H).....	129
192.357 Customer meters and regulators: Installation (Subpart H).....	130
192.359 Customer meter installations: Operating pressure (Subpart H).....	130
§192.361 Service lines: Installation (Subpart H).....	130
192.363 Service lines: Valve requirements (Subpart H).....	131
192.365 Service lines: Location of valves (Subpart H).....	132
192.367 Service lines: General requirements for connections to main piping (Subpart H).....	132
192.369 Service lines: Connections to cast iron or ductile iron mains (Subpart H).....	132
192.371 Service lines: Steel (Subpart H).....	133
192.373 Service lines: Cast iron and ductile iron (Subpart H).....	133
192.375 Service lines: Plastic (Subpart H).....	133
192.377 Service lines: Copper (Subpart H).....	133
192.379 New service lines not in use (Subpart H).....	133
192.381 Service lines: Excess flow valve performance standards (Subpart H).....	134
192.383 Excess flow valve installation (Subpart H).....	135
192.385 Manual service line shut-off valve installation (Subpart H).....	137
Abnormal Operations (49 CFR 192.605 c).....	138
192.625 Odorization of gas.....	139
Patrolling (49 CFR Part 192.705) Subpart M.....	141
Leak Surveys (49 CFR Part 192.706) Subpart M.....	142
Gas Distribution – Installation of Gas Service.....	146
City Gate Stations to Customer Meters - Gas Mains & Service Lines.....	146
Operation Procedures - DOT 49 CFR 192.605.....	147
Gas Meter and Regulator Installations.....	148
Meter Installation.....	148
Install Plastic Tapping Tee - Gas Service.....	149

Pressure Testing Pipe.....	149
Steel Main Requirements.....	150
Steel Service Line Requirements.....	150
Plastic Pipe Main and Service Requirements.....	150
Positive Displacement Meters – Diaphragm Meter.....	151
Diaphragm Meter - Principle of Operation.....	152
Dial Indexes.....	153
Reading the Clock Style Gas Meter Dial.....	154
Reading the Dial.....	154
Service Regulator Sizing for Rated Gas Load.....	156
British Thermal Units.....	157
Calculating Gas Load.....	157
Conversion Factors – Load Calculation.....	157
Selecting a Regulator.....	158
Key Points to Remember.....	159
Determining Regulator Pressure.....	159
Adjusting the Set Point.....	160
Selecting Proper Meter Size.....	160
Meter Identification - Positive Meter Case Capacity.....	160
Meter Selection – Example.....	162
Determining a Realistic Usage Value.....	162
Example – Select Meter and Regulator based on Gas Load.....	163
Solution – Meter and Regulator Selection.....	164
Potential Problems Encountered with a Positive Diaphragm Meter.....	164
Shutting off a Gas Meter.....	165
Lesson 7 – Downstream: Sales and Marketing.....	168
Objectives.....	168
Downstream - Natural Gas Utilities Interface with the Public – Messaging.....	168
Out of Sight/Out of Mind.....	168
Messaging.....	168
Public Interface – Relevant Community Safety Issues.....	168
How Natural Gas Utilities Make Money.....	173
Gas Cost Recovery.....	174
Lesson 8 – Natural Gas Markets: Physical & Financial.....	178

Objectives	178
Natural Gas Marketing & Trading	178
Introduction	179
The Commodity Futures Trading Commission (CFTC):	179
Natural Gas Markets	179
Physical Markets	180
Physical: Gas Storage	181
Physical: Regional Markets	183
Financial Markets	185
NYMEX Futures	186
Lesson 9 – The Ratemaking Process.....	189
Objectives	189
Setting Utility Rates – An Introduction	189
Determining Cost of Service	189
Test Period.....	189
Cost of Service.....	189
Cost of Service Principle – No Guaranteed Return	189
Public Utility Rate Regulation.....	190
Public Utility Regulation	191
Before FERC Order 636	191
After FERC Order 636	191
Impact of Order 636 for Gas Distribution	191
Determining Cost of Service	192
Operating versus Capital Costs	192
Cost of Service - Checks & Balances	193
Tariff – Service and Rates	193
Tariff Provisions	193
Rates Over and Under Cost of Service.....	194
Construction Certifications	195
Typical Ratemaking Case Cycle	196
