## Natural Gas Characteristics, Safety & Emergency Response

**Know what's below.  
Call before you dig!**

Qualified Operator Series  
Overview of the Natural Gas Industry

## Table of Contents

Table of Contents.....	2
<b>Chapter 1 - History of the Natural Gas Industry.....</b>	<b>5</b>
Early Natural Gas History – Discovery and Uses.....	5
First Gas Works .....	9
Large Diameter Pipeline – Beginning of an Era.....	16
<b>Chapter 2 – Natural Gas Market Segments &amp; Customers .....</b>	<b>20</b>
Energy Delivery System in America.....	20
Upstream.....	21
Midstream .....	22
Gathering Operations.....	22
Gas Transmission Operations.....	23
PHMSA 192.3 Definition: Transmission, Gathering, and Distribution .....	24
Downstream.....	26
Development and Growth of an Industry.....	26
Gas Distribution - Plastic Pipelines .....	27
NYMEX Futures .....	29
Gas Storage.....	30
<b>Chapter 3 - Natural Gas Origin &amp; Processing.....</b>	<b>34</b>
United States Oil Production.....	36
Crude Processing.....	36
Natural Gas Processing.....	38
Natural Gas Production.....	39
Early Offshore Production.....	44
Offshore Production .....	45
Offshore Geology .....	46
What is Pressure.....	47
Differential Pressure.....	47
Static Pressure.....	48
Temperature.....	48
<b>Chapter 4 – Characteristics &amp; Properties of Natural Gas.....</b>	<b>49</b>
Components of Natural Gas.....	49
Characteristics and Properties of Natural Gas.....	50
Specific Gravity .....	50
Natural Gas - Properties and Limits of Flammability.....	51

Flammable Range – LEL .....	52
Flammable Range – UEL.....	52
OSHA’s Hazardous Concentration Level – 20% of the LEL .....	52
Composition of Gas.....	54
Gas Analysis-Heating Values.....	54
British thermal unit (BTU).....	55
Dekatherm (Dth) and Therms .....	55
<b>Chapter 5 - Pipeline Safety: State &amp; Federal Regulations.....</b>	<b>56</b>
Regulatory History and Procedure Development.....	56
Incidents that Created Regulations .....	56
Gas Odorization - New London, Texas 1937 .....	56
CFR 49 192 Regulations - Natchitoches, Louisiana .....	56
Operator Qualification – Olympic Pipeline: Bellingham, Washington.....	56
Federal Pipeline Safety Regulations – Department of Transportation.....	57
Regulatory Oversight - CFR 49 Part 192 .....	57
State Pipeline Safety Regulators .....	57
Arkansas Gas Pipeline Code .....	57
Definitions (DOT CFR Part 191.3) .....	63
Company Operation & Maintenance Manual [192.605 (b)].....	64
<b>Chapter 6 – Emergency Response Guideline [192.615] .....</b>	<b>65</b>
Pipelines Are Safe.....	65
Maintained Pipelines – 192.614 Damage Prevention .....	65
Emergency Response Planning – 192.615 Emergency Plans.....	65
Natural Gas Pipeline .....	67
Emergency Response Regulations (192.615) .....	68
Emergency Response Plan.....	69
Company – Emergency Operation Procedures .....	69
Emergency Preparedness.....	74
What Emergency Responders should know before an incident.....	75
Incident Response Steps (Seven Steps).....	75
Step 1: Approach Cautiously from Upwind, Uphill, or Upstream.....	76
Step 2: Secure the Scene .....	76
Step 3: Identify the Hazards.....	78
Step 4: Assess the Situation .....	79
Step 5: Obtain Assistance from Trained Personnel .....	79

Step 6: Respond to Protect People, Property, and the Environment.....	80
Step 7: Work Together with the Pipeline Operator.....	82
Emergency Responders.....	83
Together, Incident Commander and Power Plant Operations .....	83
Damage Prevention 192.614 - A Shared Responsibility.....	84
Pipeline Integrity.....	84
Public Awareness 192.616 - Emergencies Affecting Pipelines.....	84
Incident Command Checklist.....	85
<b>Appendix A – General Product Characteristics .....</b>	<b>86</b>
<b>Appendix B – Recommended Minimum Evacuation Distances for Natural Gas Pipelines</b> <b>Leaks and Ruptures.....</b>	<b>87</b>
<b>Appendix C – Five Things About Pipeline Markers .....</b>	<b>88</b>
<b>Appendix D – Damage Prevention [192.614] .....</b>	<b>89</b>
<b>Appendix E – Emergency Preparedness &amp; Building Evacuation .....</b>	<b>91</b>
